

750W - 2250W HIGH POWER MODULAR POWER SUPPLIES

Features

Wide Range Input (90-264VAC)
Output Voltages available from 5V to 58V
Active Power Factor Correction
2250W available in single or three phase
Redundant operation
Single wire current sharing
Inhibit
5V Standby Circuit
Power Okay
I²C interface (optional)
UL, CUL, DEMKO Approvals
CE compliant

1500 Watt Chassis

AC/DC

BPC1500-XX0

XX = Output Voltage Desired from 5V to 58V

2250W Chassis

AC/DC

BPC2250-XX0

XX = Output Voltage Desired from 5V to 58V

Available in single or three phase

1500W Chassis with 2 modules
11.4" X 4" X 4.4"

2250W Chassis with 3 modules
11.4" X 4" X 6"

Applications

Network
Telecom
Voice over IP
Storage Solutions
